## working together to improve performance

The Border Force is responsible for passport control checks at all UK airports and there are national targets set by the Home Office for maximum queuing times at UK immigration.

We have been working with the Border Force to support them in delivering these targets and have a 100% success rate at Gatwick to date.

## targets

- 95% of EU passengers processed in 25 minutes or less
- 95% of the rest of the world passengers processed in 45 minutes or less
