

We are looking forward

I'm proud that Gatwick Airport is a key piece of national infrastructure and that we have remained operational since the pandemic started. I'm also proud that Gatwick has historically been one of the world's busiest single runway airports. In 2019, we had seen a decade of growth to more than 46 million passengers, supporting over 135,000 jobs nationally, and contributing £8.3 billion to the UK economy every year.

By the end of the next decade, we will need more capacity to maintain efficient operations, improve resilience and meet passenger demand. This is why we would like to bring our existing Northern Runway into routine use. Our proposals are largely within the current airport boundary and are sustainable, maximising use of existing infrastructure. Our proposals are forward looking and would bring significant benefits, including new jobs and an economic boost to our region.

We are acutely aware of our responsibilities to the future of the planet. We will grow in a way that supports the Government in achieving its commitment to net zero emissions by 2050. And we will provide more certainty for residents around noise.

I am confident in our future and very pleased to present these proposals for public consultation. We would like to hear views from local residents and anyone interested in our proposals. I encourage everyone to take time to review our plans and respond by 1 December 2021.

Stewart Wingate, Chief Executive Officer, Gatwick Airport

About our Northern Runway Project consultation

We are now consulting on our proposals to bring the existing Northern Runway into routine use alongside our main runway. The consultation runs for 12 weeks, from 9 September 2021 to 1 December 2021.

This newsletter includes a brief overview of our proposals and details of where to find out more.

Hard copies of all our consultation documents are available across the region. We are also proposing to distribute materials from a Mobile Project Office. The intended locations are included on the back page of this newsletter.

Everything you need to understand in relation to our proposals can be found on our website www.gatwickairport.com/futureplans where you can:

View our virtual exhibition which is loaded with information, including interactive exhibits, videos and links to our online questionnaire

View or download all our consultation documents including the Consultation Summary Document, the Consultation Overview Document, the Preliminary Environmental Information Report and most importantly, the questionnaire

Arrange a telephone session with our technical experts to talk through any queries

Find out how to get in touch with the team

We are inviting comments from anyone with an interest in our proposals.

All comments must be received by 11:59pm on 1 December 2021

The Gatwick Northern Runway Project

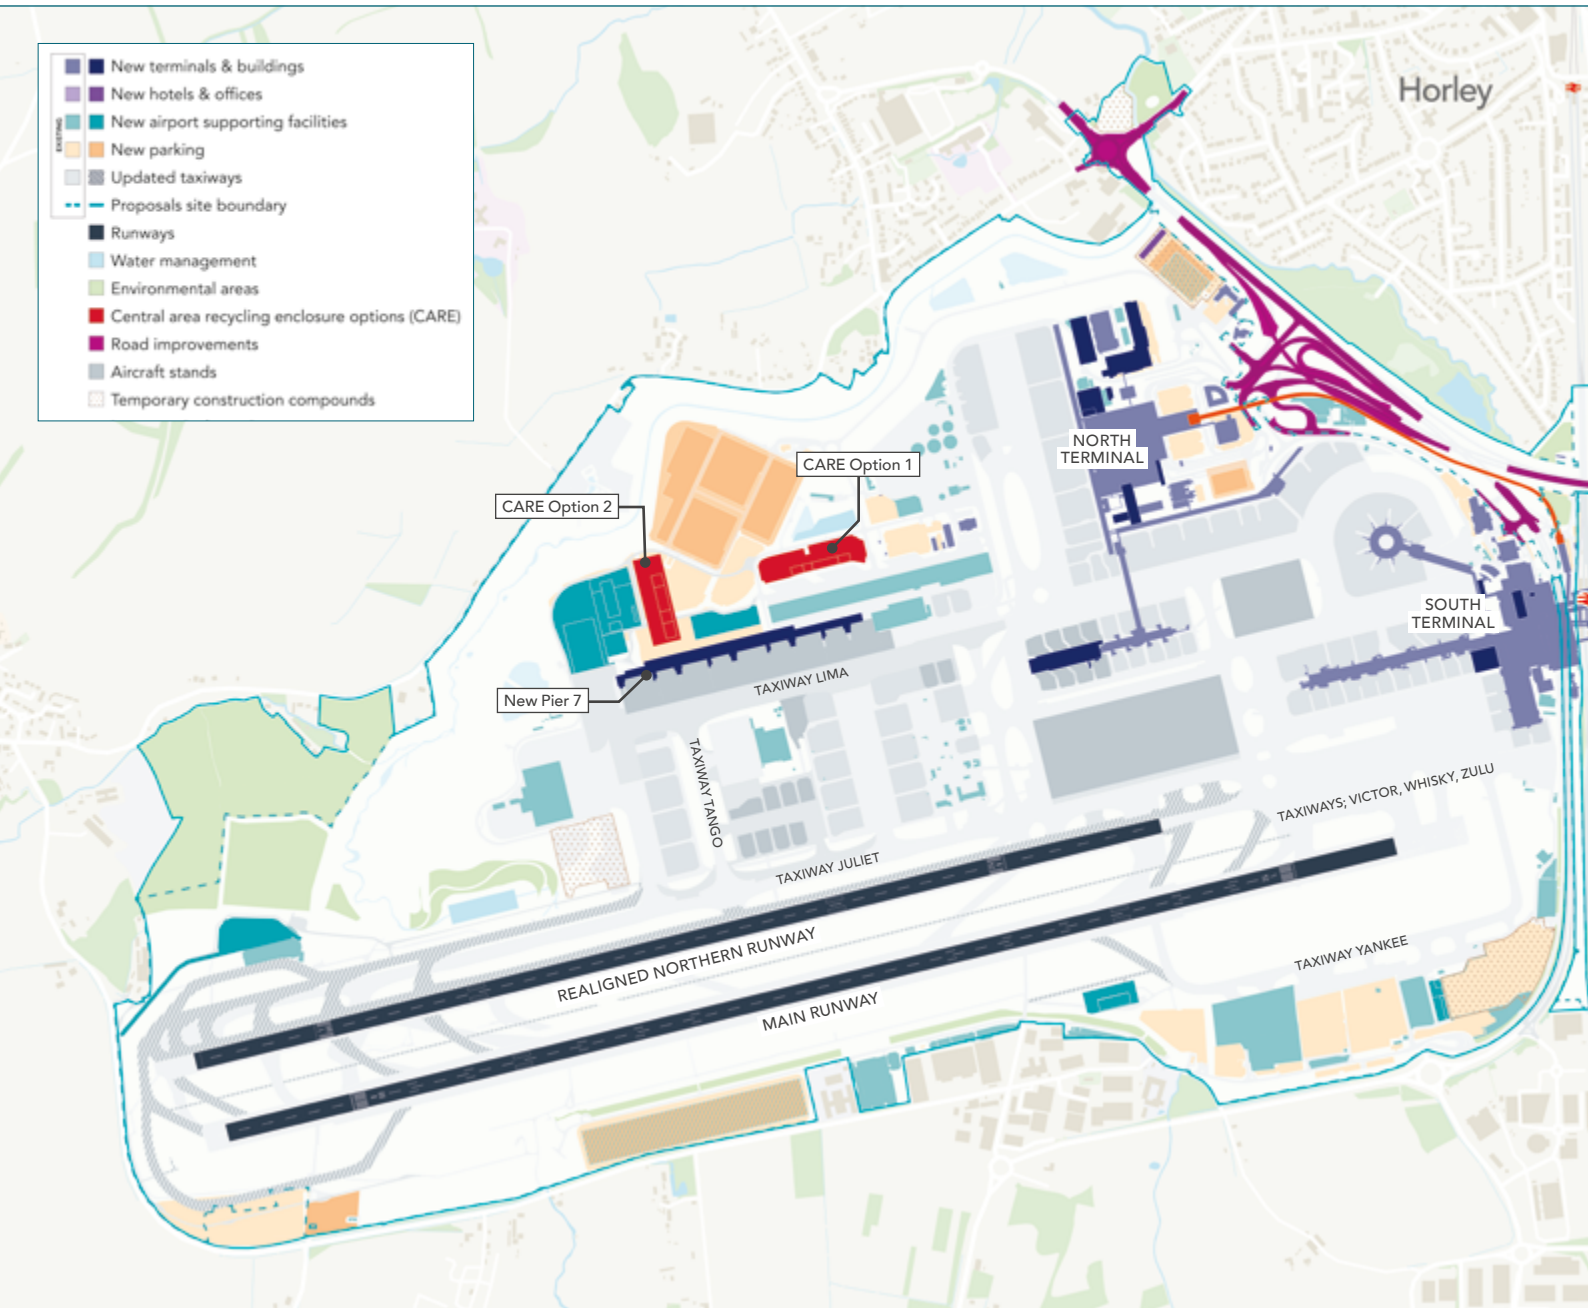

We are proposing alterations to bring the existing Northern Runway into routine use alongside our main runway, enabling the dual operation of both runways. Departures would be shared between both runways with the Northern Runway used for smaller aircraft. All arrivals would continue to use the main runway.

It is anticipated that by 2038 these proposals could increase Gatwick's passenger throughput to approximately 75.6 million passengers per annum (mppa), compared to approximately 62.4 mppa which is where we would otherwise expect to grow to by 2038. This represents an anticipated increase in capacity of approximately 13.2 mppa.

The Northern Runway is expected to be operational by summer 2029. The majority of the construction works associated with the airfield are contained within the existing airport boundary.

The key elements of our proposals to enable dual runway operations and support increased passenger numbers at Gatwick include:

- › alterations to the existing northern runway, including repositioning its centreline 12 metres further north;
- › reconfiguration of taxiways to accommodate the changes being made to the northern runway and ensuring sufficient room for the safe manoeuvring of aircraft;
- › changes to some aircraft stands to improve the handling of different types of aircraft and a proposed new remote pier (Pier 7) that would serve both North and South Terminals;
- › reconfiguration of a number of airfield facilities to facilitate taxiway changes;
- › extensions to the North and South Terminal buildings to accommodate passenger growth, improve baggage handling, and enhance the experience of our customers;
- › provision of reconfigured car parking, including new surface and multi-storey car parks;
- › provision of additional hotels and office space;
- › surface access (highway) improvements;

- > reconfiguration of existing utilities, including surface water, foul drainage and power; and
- > landscape/ecological planting and environmental mitigation.

Flights departing from the Northern Runway will continue to use existing flightpaths.

The Planning Process

This level of passenger increase, along with the road improvements needed to support it, means the project is classed as a Nationally Significant Infrastructure Project and we will need to apply for a Development Consent Order (DCO) to build and operate it. For more information on the DCO planning process, please visit: infrastructure.planninginspectorate.gov.uk.

Benefits of the Northern Runway Project

In 2038:

10,900

Additional local jobs
Gatwick Diamond

18,400

Additional regional jobs
Local + East & West Sussex, Surrey,
Kent, and Brighton & Hove

20,300

Total additional jobs
Local + regional + national

Up to £22 billion

The value of the Project to the wider economy over a 60-year period

33% more
airport jobs

Jobs at the airport would increase from 24,000 (pre-COVID levels) to 32,000 in 2038

Over 50%
skilled jobs

More than half of new airport jobs would be in higher and semi-skilled categories such as pilots, air traffic controllers and flight operations staff, customs, immigration, police, fire staff, and information technology roles.

How to respond to our consultation

Following the consultation, we will consider all feedback - along with further environmental and modelling assessments, continued engagement with statutory authorities and others - when finalising our proposals ahead of submitting an application for a DCO for the Northern Runway Project.
