Dual Passes

Where an individual already holds an ID pass and seeks employment with an additional company at Gatwick Airport requiring a second pass, both employing organisations must formally agree to this arrangement. Each company is required to provide a signed letter confirming their approval of the dual pass and clearly outlining the operational reasons for the requirement.

Both supporting letters must be uploaded to the new application via the Gateway system. The applicant must also be formally advised that misuse of either pass is strictly prohibited and that the correct pass must be used at all times while undertaking duties for the respective employer.

To clarify, we do not accept internal pass transfers. In all instances a full airside initial pass application will be required.

General Security Awareness Training (GSAT)

[Link to CAA registered training Providers](#)

There is a legal requirement for airport pass holders to receive GSAT training. Companies who are members of the ID scheme are required to arrange training for staff requiring a Full ID pass for access into the Critical part of the Security Restricted areas. GSAT can only be carried out by approved providers and must follow the official syllabus.

For more details, please refer to the CAA website.

GSAT can only be completed once an individual has been fully background checked. Where an applicant performs a role that requires directed training, this training may be used in place of GSAT. The training must remain current. Failure to continue with directed training will require GSAT. Full list of roles requiring directed training is available on the CAA website. Persons who are issued with a landside pass or temporary escorted pass are exempt from the GSAT training, however these pass holders will be issued with the GSAT information at the ID Centre.

Airside Safety Awareness E-Learning

[Link to AirDat - Airside Safety Awareness eLearn](#)

Airside Safety Awareness mandates that all staff holding a Red or Blue ID Pass (restricted zones 3, 4, 5, 6 and 7) must complete the LGW Airside Safety Awareness eLearning package. Following a regulatory audit in July 2025 there is a requirement for adding proof of completion to the ID Pass application process. 'Airside Safety Awareness Training' is for new and 5-year re-issue ID Pass applicants to enable them to prove completion of the Airside Safety Awareness Training package, hosted on AirDat.

LONDON GATWICK

Completion of the Airside Safety Awareness eLearning package must be no more than 90 days prior to the date of ID Pass application.

Operational Impacts: To better align with the Airside ID Pass 5-year re-issue cycle, the Airside Safety Awareness eLearning frequency will move from every 2 years to every 2.5 years/30-months.

This means completion of the Airside Safety Awareness eLearning at initial ID Pass issue, 2.5-year mid-point and again at the 5-year re-issue point.

Criminal Record Checks (CRC)

[Link to CRC information](#) [Link to Responsible Organisations for CRCs](#)

All applications for a Full ID Pass must be accompanied by a Criminal Record Check, (CRC).

This only applies to applicants who have been continuously employed on the airport and are transferring to a new employer within a 28-day period. A new CRC would be required if they have left the airport for more than 28 days.

For the purpose of ID pass issue, the CRC is valid for ten weeks from the date of disclosure. Signatories are therefore advised to ensure that the CRC has not time expired when submitting it onto Airport Gateway for the ID Centre to review.

Before submitting a CRC to the ID Centre, please ensure that the applicant's Full name, date of birth and their home address is correct, unless the certificate was applied for using the company address or that of an agency with delegated responsibility. Where an applicant has moved address since applying for the CRC, a letter from the employing company, confirming that the applicant has moved since applying for the CRC will be required to accompany the CRC.

Overseas CRC's

[Link to Overseas CRC's](#)

Where an individual has resided for 6 months or more outside the UK in the last 5 years, the appropriate clearance must be obtained from the country of origin. i.e. Overseas Criminal Record Check (OCRC). Any individual who has resided overseas will still need a UK CRC irrespective of how long they have been living in the UK. Details of overseas providers can be found on the DBS website.

Disqualifying Offences

[Link to Disqualifying Offences](#)

Due to changes in Disqualifying Convictions / Spent convictions. It is now the responsibility of the Authorised Signatory to ensure that a Disclosure Certificate does not contain any Disqualifying Convictions. Details of convictions can be obtained by logging into the CAA website as detailed below

[Link to Disqualifying Convictions](#)

The Department for Transport (DfT) sets the list of disqualifying convictions.

A conviction can result in disqualification if it is:

- ➔ Related to terrorism.
- ➔ Inappropriate for someone working in aviation (e.g. immigration offences)
- ➔ Relating to someone being influenced or coerced

LONDON GATWICK

- ➔ Something that calls into question someone's integrity and trustworthiness. Applicants will fail the criminal records check if it reveals a conviction for a disqualifying offence which has been received within:
 - ➔ The last 5 years where the disposal was other than a term of imprisonment.
 - ➔ The last 7 years where the disposal was a prison term of 6 months or less.
 - ➔ The last 10 years where the disposal was a prison term of between 6 months and 2 and a half years.
 - ➔ Within any time period where the disposal was a prison term of more than 2 and a half years.

Where a disqualifying offence/s is identified, the ID Pass application **must not** be submitted to the ID Centre unless a certificate of disregard is first obtained by the CAA.

Where a certificate of disregard is submitted the application will be subject to approval by the Head of Security for Gatwick Airport Ltd before being processed by the ID Centre. The ID Centre are required to confirm the authenticity of the certificate of disregard by contacting the CAA. Obtaining these approvals may cause a delay in the pass issue process.

Authorised signatories must also ensure that any convictions that are identified for their staff during the life of an ID pass are communicated promptly to the Account Leader at the Gatwick ID Centre.

UK Criminal Record Checks must be obtained from Disclosure & Barring Service (DBS) who have set up a registration system for individuals and companies who are Responsible Organisations (RO). A Responsible Organisation (RO) is an organisation registered with the DBS to submit basic checks through a web service.

Further details on the Disclosure & Barring Service (DBS) registration system can be obtained by calling Disclosure & Barring Service (DBS) [Link to DBS](#)

What is a Disclosure?

A Disclosure is a document containing impartial and confidential criminal history information held by the police and government departments which can be used by employers to make safer recruitment decisions.

Who Can Apply for a Disclosure?

Anyone can apply for a basic disclosure in their own name. This might be requested for a new job, volunteer work or to support a visa application.

There is legislation available to employers and other organisations to determine what type of disclosure is required for a particular position.

The name, the individual or responsible organisation enters into the application is the name that will be printed on the Disclosure Certificate. Your supporting documentation is information that assists in conducting all necessary enquiries to ensure that we are carrying out checks for the correct individual who has signed the application.

Types of disclosure

- ➔ Basic Disclosure contains only convictions considered unspent under The Rehabilitation of Offenders Act 1974.
- ➔ Standard Disclosure contains certain conviction information. All unspent conviction information, including unspent cautions and relevant spent convictions.

LONDON GATWICK

- ➔ Enhanced Disclosure contains all unspent conviction information, including unspent cautions and relevant spent convictions, and any other non-conviction information reasonably believed to be relevant by the police or other Government bodies.

CRC Issue Date

Proof of the security clearance must be provided to the ID Centre, by the Authorised Signatory in the form of a letter from the government authority (original only) which gives the name of the applicant and details of when the clearance was issued and when it expires.

In all applications a CRC must be obtained in addition to the CTC and both need to be within 10 weeks of issue. Compliance authority personnel or Control Authorities who hold statutory right of access need to provide an official declaration of their security clearance and background checks this is provided instead of an CRC.

Signatories are therefore advised to ensure that the clearance has not time expired when it is submitted to the ID Centre.

Gatwick Airport's responsibility in respect of its business partners is limited to ensuring that the individual has the required credentials to become and remain an ID pass holder.

The employer is responsible for ensuring that the employee has the relevant clearance to carry out the specific duties for which they are employed.

If CTC clearance is required, employees who have resided overseas continuously for six months or more in the last five years, must also include a satisfactory criminal record check issued by the relevant agency of the country or countries in which they were employed.

Referencing Guidelines

Referencing and Application Process

The Authorised Signatory is required to obtain satisfactory references in accordance with Regulation EC300 and the Department for Transport (DfT) Single Consolidated Direction (SCD) and Gatwick Airport Policy. Only references that fulfil all of the criteria should be declared on the Application for an ID pass.

The Authorised Signatory must satisfy themselves as to the authenticity of each reference and check to ensure that they meet the requirements set by Gatwick Airport Ltd.

All documentation relating to an application for an ID pass must relate to the name on the proof of identity, this includes the Application, references, CRC and /or CTC clearance and GSAT.

Where applicable, references should include "also known as" in addition to the name on the proof of identity document

It is a Gatwick Airport Ltd requirement for the sponsoring company to hold 5 year reference history, GSAT, Airside Awareness Training certificate and CRC details on file for as long as that individual holds an operational Gatwick Airport ID Pass. One reference minimum must be supplied to accompany each application for a full ID pass, with more required if the 5-year period is not covered.

LONDON GATWICK

Any gaps in employment of over 28 consecutive days must be covered by a gap reference and they must confirm how long the referee has known the applicant and, from their own personal knowledge, what the applicant was doing during the specific period in question. Emails are acceptable for Gap references.

All Gap references must include the referee's full name, home address and daytime contact phone numbers.

References from professional bodies or individuals such as doctors, solicitors and bank managers are not considered acceptable unless the applicant is known to them in a personal context and not just as a patient or client.

Gap references must not be provided by blood relatives and/or relatives by marriage or adoption, including cousins, partners, partners' relatives or anyone cohabiting with the applicant. Work colleagues should not provide a gap reference.

References must not be sought from individuals under the age of 16, persons living at the same address as the applicant, current employees of the sponsoring company or associated sub-contracting companies.

As an Authorised Signatory for your company, it is your responsibility to ensure suitable references are obtained in support of applications

The ID Centre will check all references submitted to ensure the criteria has been met. Failure to provide suitable references will result in the application being returned to rectify the issue. Admin charges will be incurred as a result of this and applicants delayed in obtaining their ID Pass.

Any alterations or amendments made to the content of a reference must only be done by the original referee, who should sign and date all amendments. The Authorised Signatory may endorse the reference in order to confirm additional information that will assist Gatwick Airport vetting process.

How a Reference Should Be Obtained

The applicant must not be involved in the process for requesting, obtaining, delivering, collecting or verifying references.

Gatwick Airport insists that references are requested on a reference pro-forma obtained on the ID Centre website: Click here- [Templates and Forms | London Gatwick Airport](#)

These should be copied onto your company letter headed paper and sent to the referees. All references that you receive should be addressed and sent direct to you as the prospective employing or contracting company.

"To whom it may concern" references are only acceptable if a copy of the Gatwick template reference request letter is provided with the application.

When requesting references Authorised signatories and all referees should be advised that they are giving a reference for security purposes and that knowingly providing false information could lead to prosecution under the terms of the Aviation Security Act 1982 as amended by the Aviation and Maritime Security Act 1990.

Delays in returning references may result in the individual's application and ID Pass being delayed for issue.

What a Reference Needs to Cover

Work history which accounts for all periods of employment, self-employment and unemployment during the 5 years preceding the ID Pass application should be established. This will include your own company if the applicant has been employed by you. School, College or University references should also be obtained where applicable.

Types Of References

HMRC – 5 Year Reference Statement

HMRC Security Interview Template

HMRC - How to Guide

We can now accept a five-year UK HMRC statement (in place of references) to cover employment referencing for full pass applications. Any gaps in employment of over 28 days will still require referencing.

Please ensure you follow the guidance notes in the 'Security interview HMRC verification template'. Additionally, the standard London Gatwick security interview should be included with each application.

For all information, please refer to 'HMRC' in place of 5 year reference and using the HMRC app 'under Templates and Forms'

Self-Employment

Where the applicant has been self-employed a reference from the applicant's accountant, the Inland Revenue or solicitor must be obtained. School College or University

For persons aged 16 or under, who are still attending or have just left statutory education, a reference from their most recent educational establishment and a personal reference covering the full 5 year period will be required. Employment Agency

When employing or contracting a person who has been employed by an agency, an Employment Agency reference must be obtained. The agency must list all placement dates with companies during the period of time the individual has been on the employment agency register. Periods more than 28 days without a placement must be covered by a gap reference.

Re-Employment

In the event that you re-employ a person, you will be able to utilise any applicable original employment references that were obtained at the time of original contract and still held on file as long as the references meet the current criteria.

Voluntary Sector

It is recognised that organisations that utilise applicants on a voluntary basis may not be prepared to supply employment references. Where this is proven to be the case a Voluntary Sector Reference may be sought.

Covering Gaps of over 28 Days

Unemployment

Any periods of unemployment should be verified with the Job Centre Plus at which the applicant was registered.

Extended Periods outside the UK

Where an applicant has spent more than 28 days outside the UK, for reasons other than employment, a gap reference should be obtained verifying the applicant's whereabouts and activities during that period of time. Additionally proof of travel (e.g. passport, immigration stamps), may be requested.

Where an individual has resided in any country outside the UK for 6 months or more, the appropriate clearance must also be obtained i.e. Overseas Criminal Record Check (OCRC) from the country of origin.

The referee must have known the applicant for a minimum period of 24 months and must have known the applicant during the specific period in question.

If the referee provides information confirming that the applicant was working during the gap period, an employment reference will be required.

Emailed References

In order to improve the speed of reference processing email references may be used for

- ➔ Employment references
- ➔ Current employment references
- ➔ Employment agency references
- ➔ Education references
- ➔ Voluntary sector reference
- ➔ Gap references

Please Note - Email references will not be supplied by:-

- ➔ HMRC
- ➔ Job Centre plus

To preserve the integrity of the reference and to allow the email address to be verified the following rules have been set out:

Email addresses must contain the name of the individual (therefore, recruitment@xyz.com would be unacceptable).

If the original request is made to a generic email account (e.g. lgw@gatwickairport.com) then a response must be solicited from a named individual's email account (e.g. james.brown@gatwickairport.com). Responses from generic email accounts will not be accepted.

For the avoidance of doubt, if a generic email address is accompanied by the name of an individual (e.g. with lgw@gatwickairport.com "sent by James Brown" underneath) then this will be acceptable

Employment - email addresses must contain a clearly identifiable company reference for example james.brown@gatwickairport.com, not james.brown@yahoo.co.uk.

Gap - email addresses at an Internet Service Provider (ISP) are acceptable but they must contain the name of the individual (therefore, lazyboy@yahoo.co.uk would not be acceptable).

The email thread must be started by the sponsoring company i.e. the company applying for the reference. This shows that the correspondence in the email chain refers back to the original request. This means that:

- ➔ The initial request for the reference must be made by the sponsoring company
- ➔ The initial request must ask the receiving referee to respond by completing the appropriate reference (which must be supplied as an attachment, for example in Microsoft Word, doc or Portable Document Format, PDF)
- ➔ The reference that is returned to the sponsoring company, by email, must contain complete responses to all of the questions as set out in the reference template. However, the reference may still be acceptable if

LONDON GATWICK

all of the questions posed within the reference request have been satisfied by other supporting text within the email.

To help check that the reference returned is authentic a return email must be sent to the referee.

When sending a return email, the sponsoring company must ensure it is sent to the same address as supplied by the referee. This will reduce the risk of false representation. This means that:

- ➔ The return email must acknowledge the reference for the named individual.
- ➔ The return email should clearly tell the recipient what to do if they did not supply the reference.
- ➔ To ensure a full audit trail all email correspondence should be submitted with the application:
 - ➔ Initiating email with attached reference template
 - ➔ The email that returns the reference questionnaire
 - ➔ An acknowledgement of the email confirming that the sponsoring company has received a reference for an individual

Authorised signatories and sponsoring companies must ensure that emails and associated references remains stored electronically for audit purposes while the ID pass remains operational.

What to Do When References Have Been Received

Once the references for your applicant have been received, you will need to undertake checks to ensure that the references meet the required standards.

Reference Check Guidelines

File Notes

Where variation or verification activities are undertaken by Authorised signatories, file notes should be recorded and submitted with the application. This will ensure that additional work undertaken by the Authorised Signatory is understood in order to process the application as swiftly as possible.

Any misspelling of names must be covered by a file note to confirm the Authorised Signatory has recognised the error and verified it with the referee – this will prevent the application being automatically queried/rejected by the vetting team.

Material changes such as an incorrect name **will not be** acceptable with a file note.

If you have any doubts or concerns with the content or authenticity of any reference you should contact your Account Leader who can advise you on the action to be taken.

Failure to submit ID pass applications without accurate information, dates and references may result in the application being rejected back to you on Airport Gateway and an admin charge incurred.

The ID Centre recommend that copies of the application, original references and other related documents are retained by the Signatory when submitting the application for audit purpose

ID Centre – Security Vetting Team

Once the relevant applications are submitted on Airport Gateway, they will be reviewed by the ID Centre Vetting team to ensure that all the required documentation has been uploaded and that the references meet the criteria outlined in these guidelines.

GSAT, Airside Safety Awareness eLearn and CRC/CTC details will also be checked to ensure that they are within the required issue date. Full name and address are accurate and there are no disqualifying offences recorded on the clearance.

In the event that references, GSAT, Airside Safety Awareness or CRC/CTC do not meet the criteria, you will be notified, and the application will be returned to you via Airport Gateway. You will be advised of the action that needs to be taken in order to re-submit the application. Once it is established that there are no discrepancies or obvious reasons for concern with the references, the Vetting team will perform their vetting checks. This includes contacting referees to confirm the detail they provided on the reference is to the best of their knowledge accurate.

Ensure that the applicant is in possession of the same identity document checked at the Security interview and entered onto the application when they attend the ID Centre to collect their ID Pass.

References, GSAT, Airside Safety Awareness and CRC/CTC details must be retained for the duration of an applicant's operational ID Pass. It is a requirement that full 5-year reference history is held by the sponsoring company and may be required to be seen for audit purpose.

You are advised that the Vetting team will not provide information regarding an ID pass application directly to the applicant, any calls from an applicant will be re-directed back to their Authorised Signatory.

References from professional bodies or individuals such as doctors, solicitors and bank managers are not considered acceptable unless the applicant is known to them in a personal context and not just as a patient or client.

Gap references must not be provided by blood relatives and/or relatives by marriage or adoption, including cousins, partners, partners' relatives or anyone cohabiting with the applicant. Work colleagues should not provide a gap or personal reference.

References must not be sought from individuals under the age of 16, persons living at the same address as the applicant, current employees of the sponsoring company or associated sub-contracting companies.

As an Authorised Signatory for your company, it is your responsibility to ensure suitable references are obtained in support of applications and that they are bona-fide. The ID Centre will check all references submitted to ensure the criteria has been met.

Any alterations or amendments made to the content of a reference must only be done by the original referee, who should sign and date all amendments. The Authorised Signatory may endorse the reference in order to confirm additional information that will assist Gatwick Airport vetting process.

When the application has been approved for ID pass issue, you will be notified on Airport Gateway and be able to book an appointment for collection at the ID centre. **Please ensure that the applicant is in possession of the same identity document on the application when they attend the ID Centre.**

Ongoing Pass Management

General Requirements

When a company applies for any type of ID pass and that pass has been issued, the Authorised Signatory becomes responsible for the management of that pass and must ensure that they are only used for the purpose for which they were issued.

All pass holders must be made aware of their responsibilities as a Security ID Pass holder. The Authorised Signatory must ensure that all passes are returned to the ID Centre when no longer required. This may be either when an employee leaves your company, where an employee no longer needs to access the airport on a regular basis as part of their job function or the pass is expired and no longer required. If an employee's ID pass requirements or details have changed the Authorised Signatory will need to ensure that this is reflected by completing a Change of ID Pass Details application and submit to the ID Centre via Airport Gateway.

Reinstatement / Parking of an ID Pass

Full ID passes that have not been used to gain access into the Critical Part within the preceding 60 days will be parked and will no longer provide access to Critical parts of airport areas.

Authorised signatories may request the re-instatement of a parked ID pass when an ID pass has not been used for a period of 6 months or more, up to a maximum of 12 months by completing and submitting a reinstatement application on Airport Gateway. The pass will then be reinstated and granted an exemption from parking for 7

days only, if the pass is not used within that period, it will automatically re-park. Reinstatement of ID passes is monitored and may be rejected if it is proven that an individual does not attend the airport on a regular basis.

A letter of continuous employment will need to be supplied for reinstatements when an ID pass has been parked for 6 months or more.

Authorised signatories must notify the ID Centre Account Leader when an ID pass holder commences maternity leave, long term sick or secondment to another location within the business. In some instances, confirmation of continuous employment and a new CRC will be required for periods of up to 12 months of non-use.

For further information on the parking and reinstatement of an ID pass please refer to the current Gatwick Airport Directive.

Seasonal Worker - Career Break - Extended Unpaid Leave

The above will require prior approval from the ID Centre Account Leader

Where there is to be a break in continuous employment or periods where an employer is unable to account for an employee, the ID Centre Account Leader must be notified. The ID Centre will need to know when the work break commences. The ID pass will then be suspended for a maximum period of 12 months and must be returned to the ID Centre for safe keeping.

Please ensure "Safe Keeping" is clearly indicated when returning the ID pass, otherwise it may be cancelled in error and a new ID Pass Application will then be required and a charge incurred.

When the employee returns, the Signatory will be required to conduct a new Security interview and obtain references covering the period of absence and submit these together with a completed Reinstatement application and covering letter on Airport Gateway. The application and references will be subject to the full application vetting process. Once approved the Signatory will be notified.

If the pass expires during the period of absence or for periods of absence over 12 months and has not already been returned to the ID Centre for safekeeping, the ID Pass must be returned for cancellation, and a Full Application will be required.

Non return of an expired or Un-surrendered ID pass to the ID Centre will incur an admin charge.

Critical / Restricted Part Pass (including Gatwick Airport Cargo Areas)

ID passes issued by Gatwick Airport that permit access to the Critical Part of the airport including Cargo or Maintenance areas follow the same ID Pass Application process as for a Critical Part pass, except, references and CRC are not required to be seen by the ID Centre. However, references and CRC must be obtained by the company and kept on file for audit purpose. Access levels for these pass types will be determined by the ID Centre.

Un-surrendered ID Pass

Authorised signatories must ensure that all Full and Landside ID passes are collected from anyone in their company who no longer require the ID pass, ensuring that they are returned to the ID Centre for cancellation to avoid an admin charge.

The ID Centre must be notified immediately if an employee leaves your employment whilst remaining in possession of an ID pass, a stop can be placed on the system to ensure the ID pass cannot be used and cause a breach of security.

If an ID pass sponsored by your company is not returned, it is a requirement that you write to the individual by email, recorded or registered mail and keep a record of your efforts to contact the individual.

LONDON GATWICK

The ID Centre will require evidence from your company of the action you have taken, to secure the return of the outstanding ID pass, it is not sufficient for you to say that you have spoken to the individual and asked them to return the pass.

The individual should be reminded that the ID pass which they were issued, remains the property of Gatwick Airport and should not be returned to any other Airport.

Companies who fail to return full and landside IDs to the ID Centre will be charged for each pass not returned. In addition, the facility to obtain future passes may be restricted or withdrawn.

Change of Personal Details or Access Requirements

If an employee has any change to their personal details e.g. hair colour, appearance (to include the wearing of glasses), name, job title or change of access requirements, the authorised signatory must submit a Change of ID Pass Details application on Airport Gateway authorising the change of ID pass details. The individual will be required to attend the ID Centre with their current ID pass, to have their records amended and ID pass reissued. **An appointment will be required and can be booked once the change of details application has been approved by the ID centre.**

Revalidation

Company contacts are provided with monthly reports indicating when passes are due to expire. The authorised signatory is responsible for completing the application authorising any ID pass re-validations and submitting it to the ID Centre on Airport Gateway for the pass to be extended.

For passes that display a visible expiry date, the pass holder will need to attend the ID Centre with their current ID pass for a revalidation. **An appointment will be required.**

Full Airside Pass Renewal (Every 5 years)

It is a CAA requirement that all ID pass details, including photograph, and GSAT details are renewed every 5 years. Airside Safety Awareness eLearn (needs to be redone every 2.5 years) The Authorised Signatory is required to obtain an accreditation check through Airport Gateway, this forms part of the Full Airside Pass renewal application on Airport Gateway. The individual is required to attend the ID Centre with a valid photographic form of identity for the renewal. **An appointment will be required and can be booked once the application is approved by the ID centre.**

Record Keeping

Your company will be expected to keep accurate records of all ID passes requested, as well as the ID numbers allocated to each pass.

Access to Controlled Buildings, piers, lifts, lounges and machinery utilising ID pass technology

An increasing number of buildings and utilities are accessed via the ID pass issued at Gatwick Airport. Access to these areas is controlled by the building tenant or the department responsible for that area. If your company requires access to a specific area that is not obtainable via the access level granted on an ID pass, complete a CEM request form which can then be emailed to the ID Centre Account Managers, link to form -> [CEM Request Form](#)

Pin Numbers

Pin numbers are not automatically issued by the ID Centre. Companies who have a requirement for PIN number access should request them when applying for the initial ID pass or contact an Account Leader in writing stating the reason for PIN allocation.

TUPE Transfer

Vehicle Passes

These are applied for through Airport Gateway and approved by the ID centre. Once approved the signatory can print them off themselves for use. There are 2 types of Vehicle Pass

- ➔ Permanent Apron Vehicle Pass
- ➔ Temporary Airside Vehicle pass

Only licensed companies may apply for vehicle passes. The following should be read in conjunction with the guidelines for obtaining Airside Driving Permits (ADP) and Airside Vehicle Passes (AVP) in accordance with the relevant Gatwick Airport Directives (GADs).

Please contact AirDat for information relating to Airside Operator licence (AOL) which is required for vehicles operating Airside.

All vehicles entering the Critical Parts at Gatwick Airport must have aviation insurance and the company Authorised Signatory will be confirming this when signing the declaration on the application. The AVP is not transferable. Vehicle safety inspection forms or MOT certificates where applicable must be available for inspection by Gatwick Airport, Control Authorities, DfT and their agents.

Please note: AVPs cannot be sponsored by another company. Companies will need to obtain an Airside Operations licence and join the Gatwick ID Scheme if they need to obtain AVPs. AVPs will be made valid to the company expiry date held on the ID system and not to the date given on the AOL.

Airside Driving Permits (ADP)

All members of staff undertaking Airside driving duties must hold an ADP. To arrange Airside driver training please go to www.airdat.org
